## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Chiu et al. (US 6,247,986).

With reference to Figs. 2 and 4, the prior art teaches the claimed invention in that it discloses a method for forming a multilevel structure on a surface, the method comprising:

depositing a curable liquid layer 20 (i.e., slurry disclosed in Examples 3-7) on the surface;

pressing a stamp 30 having a multilevel pattern therein into the liquid layer to produce in the liquid layer a multilevel structure defined by the pattern; and

curing the liquid layer to produce a solid layer having the multilevel structure therein (col. 6, lines 37-62, col. 8, lines 4-50).

For claims 2, 4, 6-7, see col. 10, lines 35-47 for the disclosure of aligning the stretchable mold and the patterned substrate, wherein the stretchable mold has protrusions or indentations which align and interlock with complementary protrusions or indentations provided on the substrate.

For claims 3, since the alignment between the mold and the substrate is performed prior to hardening the curable liquid layer, the alignment would inherently involve a lubricating movement.

For claim 5, see col. 10, lines 51-55 for the disclosure of a flexible polymer mold, which is an elastomeric material.

For claim 8, see col. 10, lines 55-57 for the disclosure of a mold that includes a curable material which is cast and cured, i.e., a rigid material since the material has been cured.

3. Claims 9-16 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim. Claim 8 is a multiple dependent claim. Claims 9, 10, and 15 are also multiple dependent claims that depend on claim 8. A multiple dependent claim cannot depend on a claim which is also a multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 9-16 have not been further treated on the merits.
